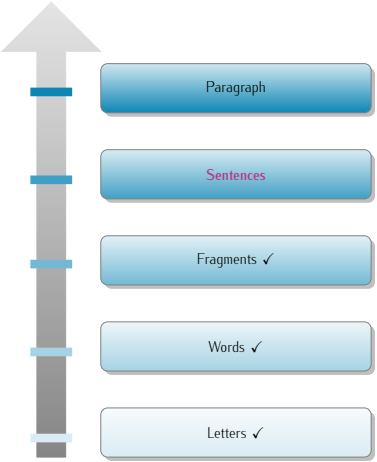
Past Tense Verb الْفِعْلُ الْمَاضِي

Types of مَفعُول

Sentence in Arabic: Introduction Test

- Recall the overall picture:



Sentence in Arabic: Introduction

There are two type of sentences in Arabic Language:

i. The Nominal Sentence (Noun-based) الْجُمْلَةُ الاسْمِيَّة If a sentence begins with an إِسْم (few exception are there)

ii. The verbal Sentence (Verb-based) الْجُمْلَةُ الفِعْلِيَّةُ If a sentence begins with a فِعْل (no exception to this rule)

This section we will study **الْجُمْلَةُ الاسْمِيَّة or Noun-based Sentence**

Fragment and Sentence

- A group of words may form a fragment or sentence. If it is not a fragment then it must be a sentence.
- So, it is important to first check if it is fragment. Recall in all fragments, words are connected or related. So far we know, there are 5 fragments:
  i. Harf of Jar حَرْفُ الْجَرِّ **Example:** مِن شَرِّ
  ii. harf of Nasb حرف النصب **Example:** إِنَّ ٱللَّهَ
  iii. Mudaf مُضَاف and Mudaf Elaihi مُضَاف إِليه **Example:** رَبِّ الْعَالَمِينَ Lord OF the worlds. (Mudaf will have No ال and it must be light and Mudaf Elaihi will be a Jar)
  iv. Mousoof مَوْصُوف and Sifa صِفَة **Example:** الصِّرَاطَ الْمُسْتَقِيمَ The Straight Path (Both must have exactly same 4 properties)
  v. Pointers **Example:** ذَٰلِكَ الْكِتَابُ That book. (the use of ال makes it a fragment)

Fragment and Sentence

i. Harf of Jar حَرْفُ الْجَرِّ
ii. harf of Nasb حرف النصب
iii. **Mudaf مُضَاف and Mudaf Elaihi مُضَاف إِليه**
iv. **Mousoof مَوْصُوف and Sifa صِفَة**
v. Pointers

So, above are the 5 ways two words can be glued together. Out of them, **iii) Mudaf and Mudaf Ealihi and iv) Mousoof Sifa** need to be checked since remaining options are easily identified by their corresponding particles.

Sentence in Arabic: Introduction

- There are basically 2 **invisible words** in Arabic: "**OF**" and "**IS**" (be verb). OF has been covered in مُضَاف and مُضَاف إِليه
- Here we will cover **invisible "IS"** (i.e. AM, ARE). The Golden Rule to detect this invisible "IS" is as follows:

Rule for Detecting Invisible "IS"

As soon as we find two words that are not a part of one of the mentioned 5 relationships, we have a **break in the chain** which introduces an **invisible "IS"**.

In other words, when we get two words side by side and they are not fragments in any way, then there must an invisible "IS" between them.

Example 1

- ٱللَّهُ أَكْبَرُ these two words are not fragments by i), ii) and v) because there is no appropriate particle for that. So, we need to check iii) and iv) only.
  a) Not a مُضَاف and مُضَاف إِليه since the second word (i.e. as مُضَاف إِليه) أَكْبَرُ is not a مَجْرُورٌ
  b) Not a مَوْصُوف and صِفَة because they do not have exactly same 4 properties.

  اللَّهُ ⟶ R/1/M/P while أَكْبَرُ ⟶ R/1/M/C

So, there is an invisible "IS" between them, اللَّهُ أَكْبَرُ ⟶ Allah (IS) the greatest.

Example 2

- الْحَمْدُ لِلَّهِ these two words are not fragments by i), ii) and v) because there is no appropriate particle for that. So, we need to check iii) and iv) only.
  a) Not a مُضَاف and مُضَاف إِليه since the first word (i.e. as الْحَمْدُ (مُضَاف has an ال on it. (recall the conditions of Mudaf)
  b) Not a مَوْصُوف and صِفَة because they do not have exactly same 4 properties.
  الْحَمْدُ is مَرْفُوعٌ while لِلَّهِ is مَجْرُورٌ

So, there is an invisible "IS" between them,الْحَمْدُ لِلَّهِ ⟶ All praise (IS) for Allah.

Example 3

- إِنَّ الْإِنسَانَ لَفِي خُسْرٍ

  a) إِنَّ الْإِنسَانَ ⟶ إِنَّ is a حرف النصب , Together it is a حرف النصب and its victim.

  b) لَفِي خُسْرٍ ⟶ لَ is emphasis particle فِ is a Harf of Jar, Together it is a حَرْفُ الْجَرِّ and its victim

  As there is a break of chain between these fragments, so there is an invisible "IS"

  لَفِي خُسْرٍ (IS) إِنَّ الْإِنسَانَ ⟶ Indeed every human "IS" in loss.

Example 4

- إِنَّ اللَّهَ عَلَىٰ كُلِّ شَيْءٍ قَدِيرٌ

  a) إِنَّ اللَّهَ ⟶ إِنَّ is a حرف النصب , so these 2 words are connected together. (Indeed Allah)

  b) عَلَىٰ كُلِّ شَيْءٍ ⟶ عَلَى is a حَرْفُ الْجَرِّ , so next word كُلِّ is مَجْرُورٌ . Again, كُلِّ شَيْءٍ is connected as مُضَاف and مُضَاف إليه (every kind OF thing=>each thing). These 3 words are connected together.

  c) قَدِيرٌ ⟶ (able to do) it is a مَرْفُوعٌ and there is **a break in the chain**. It seems unrelated to its previous fragments.

  d) Before that, we detect **another break in chain** between إِنَّ اللَّهَ and عَلَىٰ كُلِّ شَيْءٍ

  e) When we detect multiple break of chain, the rule is: **replace the first break by "IS" and ignore others**.

  f) قَدِيرٌ break2 عَلَىٰ كُلِّ شَيْءٍ break1 إِنَّ اللَّهَ → قَدِيرٌ ~~break2~~ عَلَىٰ كُلِّ شَيْءٍ (IS) إِنَّ اللَّهَ

  g) As a result the meanings becomes:
  Indeed Allah (IS) **one each thing capable.**

الْجُمْلَةُ الاسْمِيَّة: Detection Methods

Here we will study a number of techniques to detection of the invisible "is" in Noun-based Sentence:

1. After independent pronoun
2. After حرف النصب and its victim
3. After Pointers without article "the" ال
4. Proper إِسْم followed by Common إِسْم
5. When there is a **break** in the chain (we have already covered it up) ✓

الْجُمْلَةُ الاسْمِيَّة: Detection Method 1: Independent Pronoun

a) Independent pronouns are followed by an invisible 'is'. They usually appear at the very beginning of the sentence.

b) If the pronoun is followed by an إِسْم then both must match in number and gender.

Example:

- هُوَ الْغَفُورُ الرَّحِيمُ He (is) the most forgiving and most merciful.
- نَحْنُ أَوْلِيَآؤُكُمْ We (are) your allies.

Trick: It is quite helpful the remember the meanings of the Independent Pronouns as follows:

Independent Pronoun	Meaning
أَنَا	I am
نَحْنُ	We are
أَنْتُمْ	You (all) are
هُوَ	He is

الْجُمْلَةُ الاسْمِيَّة: Detection Method 1 (Cont.): Independent Pronoun

a) Independent pronouns are followed by an invisible ‘is’. They usually appear at the very beginning of the sentence.

b) If the pronoun is followed by an إِسْم then both must match in number and gender.

Example:

After-is
Number: plural
Gender: masculine

أَنْتُمْ | قَوْمٌ مُسْرِفُوْنَ

Before-is
Number: plural
Gender: masculine

You all $\boxed{\text{are}}$ *an extravagant nation.*

After-is
Number: singular
Gender: masculine

هُوَ | اللهُ

Before-is
Number: singular
Gender: masculine

He $\boxed{\text{is}}$ *Allah.*

الْجُمْلَةُ الاسْمِيَّة: Detection Method 2: After حرف النصب

a) A حرف النصب along with an إِسْم followed by an invisible "IS"

Example:

- إِنَّ الْإِنسَانَ لَفِي خُسْرٍ Indeed human (IS) in loss.
- وَلَـٰكِنَّ ٱلْبِرَّ and however the goodness (IS)
- إِنَّ الْمُتَّقِينَ certainly the pious (ARE)
- إِنَّ اللَّهَ مَعَ الصَّابِرِينَ Certainly Allah (IS) with those who are patient. 2:153

الْجُمْلَةُ الاسْمِيَّة: Detection Method 3: After Pointers

a) There is an invisible "IS" after a pointer if the word (i.e. إِسْم) after it **does not have an ال** on it.

b) If it is a pair of pointer and إِسْم then, both إِسْم must match number and gender.

Example:

After-is
Number: plural
Gender: masculine

the word that comes after the اسم الإشارة does not have ال

أُوْلائِكَ | أَصْحابُ النَّارِ

Before-is
Number: plural
Gender: masculine

Those are the people of the fire

After-is
Can come as a جار ومجرور; has no number or gender.

هذا | مِنْ عِنْدِ اللهِ

Before-is
Number: singular
Gender: masculine

This is from Allah

الْجُمْلَةُ الاسْمِيَّة: Detection Method 3: After Pointers (Cont.)

a) There is an invisible "IS" after a pointer if the word (i.e. إِسْم) after it **does not have an ال** on it.

b) If it is a pair of pointer and إِسْم then, both إِسْم must match number and gender.

More Examples:

- أُوْلَآئِكَ عَلَىٰ هُدًى مِّن رَّبِّهِمْ ۖ **Those (ARE)** the people who are truly guided and successful. 2:5

  NOTE: it is **NOT** a pointer and إِسْم pair.

- هَٰذِهِۦ جَهَنَّمُ ٱلَّتِى يُكَذِّبُ بِهَا ٱلْمُجْرِمُونَ **This (IS) Hell**, which the criminals deny. 55:43

  NOTE: it **is** a pointer and إِسْم pair.Both are Singular and Feminine.

الْجُمْلَةُ الاسْمِيَّة: Detection Method 4: Proper Noun followed by Common Noun

a) When a proper word is followed directly by a common word, an "IS" goes between them.

b) The two words usually match in number and gender.

c) Motivating Example in English: **Abdul Karim(P) a teacher (C) → Abdul Karim (IS) a teacher.**

Example:

After-is
Number: pair
Gender: feminine
Type: common
the "before-is" and "after-is" match in number and gender

يَداهُ | مَبْسُوْطَتَانِ

Before-is
Number: pair
Gender: feminine
Type: proper

His (2) hands are extended.

واللهُ | واسِعٌ عَلِيْمٌ

And Allah is all-encompassing and all-knowing

الْجُمْلَةُ الاسْمِيَّة: Detection Method 5: Break in the chain

Already covered up.

الْجُمْلَةُ الاسْمِيَّة: Grammartical Labeling

Grammatical labeling is termed as إعراب. There are 2 layers of labeling:

1. Fragment-level labels also known as micro إعراب ✓
2. **Sentence-level labels also known as macro إعراب**

Sentence-level Labels

A الْجُمْلَةُ الاسْمِيَّة has three parts:

1. مُبتَدَأْ Early Subject It is the part before "IS". It is either مَرْفُوعٌ or حرف النصب and its victim. It is made up of a single إِسْم or إِسْم + إِسْم fragment. It is an essential part. It is normally A Proper Noun i.e. مَعْرِفَة
2. خَبَرْ Late Subject It is the part after "IS". It is always مَرْفُوعٌ . It is made up of a single إِسْم or إِسْم + إِسْم fragment.
3. مُتَعَلِّق بِا لخَبرَ It is additional part after "IS". It is made up of a جار و مَجرُور or a special مُضَاف

Tips: If we get two مَرْفُوعٌ equivalently one حرف النصب +Victim and one مَرْفُوعٌ then, the first one is the مُبتَدَأْ and the second one is the خَبَرْ . And they are not connected fragments like مَوْصُوف and صِفَة

Sentence-level Labeling: Summary

Example: إِنَّ الْإِنسَانَ لِرَبِّهِ لَكَنُودٌ Indeed mankind, to his Lord, is ungrateful. 100:6

Sentence-level Labeling: Summary

Example: إِنَّ الْإِنسَانَ لِرَبِّهِ لَكَنُودٌ Indeed mankind, to his Lord, is ungrateful. 100:6

خَبَرْ	مُتَعَلِّق بِا لخَبَرْ	مُبتَدَأ
مَرْفُوعٌ	جار و مَجرُور	مَرْفُوعٌ or حرف النصب +victim
لَكَنُودٌ	لِرَبِّهِ	إِنَّ الْإِنسَانَ

Sentence-level Labels: Example

Example: إِنَّ رَسُولَ اللَّهِ كَرِيمٌ Surely the messenger of Allah is noble

Sentence-level Labels: Example

Example: إِنَّ رَسُولَ اللَّهِ كَرِيمٌ Surely the messenger of Allah is noble

- إِنَّ رَسُولَ اللَّهِ إِنَّ is a حرف النصب so the next إِسْم is مَنْصُوبٌ but next two nouns are a fragment because of Idafa. Ans these 3 words are connected and considered as a single unit. It forms a حرف النصب and its victim. So, it must be the مُبتَدَأٌ

Sentence-level Labels: Example

Example: إِنَّ رَسُولَ اللَّهِ كَرِيمٌ Surely the messenger of Allah is noble

- إِنَّ رَسُولَ اللَّهِ إِنَّ is a حرف النصب so the next إِسْم is مَنْصُوبٌ but next two nouns are a fragment because of Idafa. Ans these 3 words are connected and considered as a single unit. It forms a حرف النصب and its victim. So, it must be the مُبتَدَأٌ
- كَرِيمٌ is مَرْفُوعٌ , when we get 2 مَرْفُوعٌ or equivalent then the 2nd one must be the خَبَرْ

Sentence-level Labels: Example

Example: إِنَّ رَسُولَ اللَّهِ كَرِيمٌ Surely the messenger of Allah is noble

- إِنَّ رَسُولَ اللَّهِ إِنَّ is a حرف النصب so the next إِسْم is مَنْصُوبٌ but next two nouns are a fragment because of Idafa. Ans these 3 words are connected and considered as a single unit. It forms a حرف النصب and its victim. So, it must be the مُبتَدَأٌ
- كَرِيمٌ is مَرْفُوعٌ , when we get 2 مَرْفُوعٌ or equivalent then the 2nd one must be the خَبَرْ

مُتَعَلِّق بِا لخَبَرْ	خَبَرْ	مُبتَدأ
–	كَرِيمٌ	إِنَّ رَسُولَ اللَّهِ
–	noble	(IS) Surely the messenger of Allah

Sentence-level Labels: Example

Example: أَنْا فِي المَسجِيدِ I am in the Masjid

Sentence-level Labels: Example

Example: أَنْا فِي المَسجِيدِ I am in the Masjid

- أَنْا is مَرْفُوعٌ (recall: all independent pronouns are always مَرْفُوعٌ). So it is مُبتَدَأٌ

Sentence-level Labels: Example

Example: أَنَا فِي المَسجِيدِ I am in the Masjid

- أَنَا is مَرْفُوعٌ (recall: all independent pronouns are always مَرْفُوعٌ). So it is مُبتَدَأٌ
- فِي is a حَرْفُ الْجَرِّ , فِي المَسجِيدِ together they form جار و مَجرُور So, it is مُتَعَلِّق بِا لخَبرَ

Sentence-level Labels: Example

Example: أَنْا فِي المَسجِيدِ I am in the Masjid

- أَنْا is مَرْفُوعٌ (recall: all independent pronouns are always مَرْفُوعٌ). So it is مُبتَدَأْ
- فِي is a حَرْفُ الْجَرِّ , فِي المَسجِيدِ together they form جار و مَجرُور So, it is مُتَعَلِّق بِا لخَبرَ

خَبَرْ	مُتَعَلِّق بِا لخَبرَ	مُبتَدَأ
–	فِي المَسجِيدِ	أَنْا
–	in the masjid	(AM) I

Sentence-level Labels: Example

Example: هَٰذَا بَلَاغٌ لِّلنَّاسِ this is a notification for mankind (14:52)

Sentence-level Labels: Example

Example: هَٰذَا بَلَاغٌ لِّلنَّاسِ this is a notification for mankind (14:52)

مُتَعَلِّق بِا لخَبَرَ	خَبَرْ	مُبتَدَأ
لِ ٱلنَّاسِ	بَلَاغٌ	هَٰذَا
for mankind	a notification	(IS) this

Sentence-level Labels: Example

Example: إِنَّ ٱللَّهَ عَلَىٰ كُلِّ شَيْءٍ قَدِيرٌ surely Allah has the complete control over everything (2:148)

Sentence-level Labels: Example

Example: إِنَّ ٱللَّهَ عَلَىٰ كُلِّ شَيْءٍ قَدِيرٌ surely Allah has the complete control over everything (2:148)

خَبَرْ	مُتَعَلِّق بِا لخَبَرَ	مُبتَدأ
قَدِيرٌ complete control	عَلَىٰ كُلِّ شَيْءٍ over everything	إِنَّ ٱللَّهَ Surely Allah (has)

The order may vary

Sentence-level Labels: Example

Example: إِنَّهُ لَقَوْلُ رَسُولٍ كَرِيمٍ [That] indeed, it is the word of a noble Messenger (69:40)

Sentence-level Labels: Example

Example: إِنَّهُ لَقَوْلُ رَسُولٍ كَرِيمٍ [That] indeed, it is the word of a noble Messenger (69:40)

- إِنَّهُ is حرف النصب and its victim, so it is a مُبتَدَأٌ

Sentence-level Labels: Example

Example: إِنَّهُ لَقَوْلُ رَسُولٍ كَرِيمٍ [That] indeed, it is the word of a noble Messenger (69:40)

- إِنَّهُ is حرف النصب and its victim, so it is a مُبتَدَأٌ
- لَقَوْلُ رَسُولٍ here لَ is an emphasis particle it has no role in labeling. Two words are مُضَاف and مُضَاف إليه word OF messenger.

Sentence-level Labels: Example

–	in the cave	(ARE) They both

Sentence-level Labels: Examples from Dream Text Book

Note: 1 underline مُبتَدَأْ 2 underlines خَبَرْ and 3 underlines مُتَعَلِّق بِا لخَبرَ

إِنَّ صَلاتَكَ سَكَنٌ لَهُمْ

Certainly your prayer is relief for them.

Sentence-level Labels: Examples from Dream Text Book

Note: 1 underline مُبتَدَأْ 2 underlines خَبَرْ and 3 underlines مُتَعَلِّق بِا لخَبرَ

إِنَّ صَلاتَكَ سَكَنٌ لَهُمْ

Certainly your prayer is relief for them.

وَهُوَ خَيْرُ الحاكِمِيْنَ

And He is the best of judges.

Sentence-level Labels: Examples from Dream Text Book

Note: 1 underline مُبتَدَأْ 2 underlines خَبَرْ and 3 underlines مُتَعَلِّق بِا لخَبرَ

إِنَّ أَبانا لَفِيْ ضَلالٍ مُبِيْنٍ

Certainly our father $\boxed{\text{is}}$ *in clear error*

الْجُمْلَةُ الاسْمِيَّة Sequence of Labels

- Normal or Standard Sequence of a Noun-based Sentence is:

مُتَعَلِّق بِا لخَبرَ (MBK)	⟵ خَبَرْ (K)	⟵ مُبتَدَأْ (M)

✓ **Example:** Allah is All-Seer about/for/of His slaves (3:15)

بِالْعِبَادِ	بَصِيرٌ	اللَّهُ

- When this normal sequence is broken (i.e. **Abnormal Sequence**) the base meaning is not changed but the shade of meaning is altered.
- There are 4 reasons to break the normal sequence. One of them is to **attach exclusivity (i.e. only)**
- Two Terms: i) when something appears before it is expected to, it is labeled as **مُقَدَّم or "brought forward"**. ii) When something appears after it is expected to, it is labeled as **مُؤَخَّر or "delayed"**. It occurs as pair.

الْجُمْلَةُ الاسْمِيَّة Abnormal Sequence: Example

- "To Allah is the final return." (3:28)
- The normal sequence would be like:

مُتَعَلِّق بِا لخَبرَ	مُبتَدَأْ
إِلَى اللَّهِ	وَ الْمَصِيرُ

- But ٱلْقُرَّءَان says:

مُتَعَلِّق بِا لخَبرَ	مُبتَدَأْ
وَ إِلَى اللَّهِ	الْمَصِيرُ

✓ So, it is an abnormal sequence, which should be translated as:
"Only to Allah is the final return."

الْجُمْلَةُ الاسْمِيَّة Abnormal Sequence: Example

- For Him is the dominion of the heavens and earth. 57:2
- The normal sequence would be like:

لَهُ	مُلْكُ السَّمَاوَاتِ وَالْأَرْضِ

- But ٱلْقُرَّآء says:

مُلْكُ السَّمَاوَاتِ وَالْأَرْضِ	لَهُ

✓ So, it is an abnormal sequence, which should be translated as:
Only for Him is the dominion of the heavens and earth.

الْجُمْلَةُ الاسْمِيَّة Abnormal Sequence: Example

- they are in heedlessness turning away 21:1
- The normal sequence would be like:

فِي غَفْلَةٍ (they ignore as they are unaware)	مُّعْرِضُونَ (deliberately ignore)	وَهُمْ (and they)

- But ٱلْقُرْءَان says:

مُّعْرِضُونَ	فِي غَفْلَةٍ	وَهُمْ

✓ So, it is an abnormal sequence, which should be translated as:
they are **absolutely** in heedlessness turning away

الْجُمْلَةُ الاسْمِيَّة Abnormal Sequence: Example

- And indeed, Allah is to you Kind and Merciful. 57:9
- The normal sequence would be like:

بِكُمْ	رَّحِيمٌ	لَرَءُوفٌ	وَ إِنَّ ٱللَّهَ
(to you)	(merciful)	(kind)	(Indeed, Allah is)

- But ٱلْقُرَّءْان says:

رَّحِيمٌ	لَرَءُوفٌ	بِكُمْ	وَ إِنَّ ٱللَّهَ

✓ So, it is an abnormal sequence, which should be translated as:
And indeed, Allah is **exclusively/specially** Kind and Merciful to you.

Multiple Labels are found

الْجُمْلَةُ الاسْمِيَّة Abnormal Sequence: Example

- with Him is the mother of the Book 13:39
- The normal sequence would be like: .

عِنْدَهُ	وَ أُمُّ ٱلْكِتَابِ
(belongs to him)	(the mother of book)

- **Note:** وَ أُمُّ ٱلْكِتَابِ is an الإِضافَة where أُمُّ is a مَرْفُوعٌ as a result the fragment together is a مَرْفُوعٌ . And the first مَرْفُوعٌ must be an مُبتَدَأْ
- **But** ٱلْقُرَّءَان says:

عِنْدَهُ	وَ أُمُّ ٱلْكِتَابِ

✓ So, it is an abnormal sequence, which should be translated as:
Only with Him is the mother of the Book

Abnormal Sequence Example

Example: 15:9 (part)

وَإِنَّا لَهُ لَحَافِظُونَ and surely we will be its guardian.

لَحَافِظُونَ	لَهُ	وَإِنَّا
Surely Guardian	of it(Quran)	and surely we

✓ So, it is an abnormal sequence, which should be translated as:
Surely it is we will be its guardian.

Summary of Abnormal Sequence

- So far we have seen a number of examples where the sequence of Labels are Abnormal.
- This Abnormal Sequence results in Exclusivity in the meaning.
- **The rule for exclusivity is applicable only when the مُبتَدَأْ is Proper** or مَعرِفَة . In all shown examples they are Proper. Recall **Independent Pronouns are always proper and مَرْفُوعٌ** .
- **Consequently,** if the مُبتَدَأْ is Common or نَكِرَة then the Abnormal Sequence is the standard sequence and does not demand exclusivity.

Abnormal Sequence is Normal: Example

- Recall: if the مُبتَدَأْ is Common or نَكِرَة then the Abnormal Sequence is the standard sequence and does not demand exclusivity.

هُدًى	فِيهِ

- Note here هُدًى is the مُبتَدَأْ and it is Common نَكِرَة (i.e. No ال)
- Translation should be:
  There is guidance in it (No Only)

Abnormal Sequence is Normal: Example

مَّرَضٌ Common نَكِرَة (i.e. No ال)	فِي قُلُوبِهِم

- Note here مَرَضٌ is the مُبتَدَأْ and it is Common نَكِرَة (i.e. No ال)
- Translation should be:
  There is a disease in their hearts (No Only)

Abnormal Sequence is Normal: Example

عَذَابٌ أَلِيمٌ Common نَكِرَة (i.e. No ال)	وَ لِلْكَافِرِينَ

- Note: here عَذَابٌ أَلِيمٌ is a مَوْصُوف and صِفَة pair and the fragment is a مَرْفُوعٌ . And it must be the مُبتَدَأْ
- The مُبتَدَأْ is Common نَكِرَة (i.e. No ال)
- Translation should be:
  There is a painful punishment for the disbelievers (No Only)

Complex Sentence

- There are 3 Labels in a Noun-based Sentence
  i. مُبتَدَأْ
  ii. خَبَرْ
  iii. مُتَعَلِّق بِا لخَبرَ
- Among them خَبَرْ deserves special attention **because**:
  it can hold a FULL SENTENCE within it. It can carry both Noun-based and Verb-based Sentences We will not discuss Verb-based sentence in details here.

Dream Text Book page 70

Complex Sentence: خَبَرْ Classification

There are 3 Types of خَبَرْ

i. Simple Khabar or خَبَرَ مُفرَد : It is formed by one word or more (fragments)

Example: مُّحَمَّدٌ رَّسُولُ اللَّهِ Muhammad is the messenger of Allah (48:29)

ii. Complex Khabar I الْجُمْلَةُ الاسْمِيَّة خَبَرْ An entire sentence can work like a خَبَرْ

Example: إِنَّ اللَّهَ هُوَ الرَّزَّاقُ Indeed, it is Allah who is the [continual] Provider (51:58)

iii. Complex Khabar II: Verbal Sentence خَبَرْ (will do later)

Example: إِنَّ اللَّهَ لَا يُخْلِفُ الْمِيعَادَ Allah does not fail in His promise. (3:9)

Dream Text Book page 70

Complex Sentence: Multiple مُبتَدَأْ

- Since a خَبَرْ can be an entire sentence (where there must be a مُبتَدَأْ), it means there may be multiple مُبتَدَأْ
- Consequently, multiple مُبتَدَأْ point to same entity
- Multiple مُبتَدَأْ prepares the reader to think repeatedly about the upcoming part. It **removes doubt, i.e. it is he/they nobody else**, it **emphasizes**.

✓ **Example:**

مبتدأ ⟵ هذا (هُوَ الحَقُّ) ⟶ خبر

This, it is the truth.

مبتدأ ⟵ إِنَّكَ (أَنْتَ عَلَّامُ الغُيُوبِ) ⟶ خبر

Certainly you, you are the knower of the unseen.

Complex Sentence: Multiple مُبتَدَأْ More Examples

- فَمَن تَوَلَّىٰ بَعْدَ ذَٰلِكَ فَأُولَٰئِكَ هُمُ الْفَاسِقُونَ

  And whoever turned away after that – they were the defiantly disobedient. (3:83)

- إِنَّكَ أَنتَ السَّمِيعُ الْعَلِيمُ

  Indeed, You are the All-Hearing. (2:127)

- ذَٰلِكَ هُوَ الْفَوْزُ الْعَظِيمُ

  That is the highest attainment. (57:12)

Translation mostly fails to capture such effects

Verbal Sentence: الْجُمْلَةُ الفِعْلِيَّةُ

- Peculiar Property of verb or فِعْل
  - ✓ Unlike English every فِعْل in Arabic contains an embedded pronoun inside it. So, the action and doer is contained in one word. So, a single فِعْل can make a complete sentence (i.e. الْجُمْلَةُ الفِعْلِيَّةُ or verbal sentence)
  - ✓ **Example:** In English we may write:

    He helped , At least 2 words are needed

    But in Arabic:

    نَصَرَ it means: **He helped**

Chapter 6, page 75

Types of Verb: فِعْل

There are three types of فِعْل in Arabic:

i. Past Tense Verb or الْفِعْلُ الْمَاضِي Also termed as **Perfect Verb**[1]

ii. Present/Future Tense Verb or الْفِعْلُ الْمُضَارِعُ Also termed as **Imperfect Verb**[1]

iii. Imperative Verb or فِعْل الأَمْر

There are other فِعْل forms that can be derived from these three types, but they are not considered separate types or categories of فِعْل . They are considered as variations of these three basic types.

[1] Terms are given as per Quran Corpus Website

Past Tense Verb الْفِعْلُ الْمَاضِي

3 parts/labels of a Verbal Sentence i.e. الْجُمْلَةُ الفِعْلِيَّةُ

A. The action i.e. فِعْل
B. The Doer i.e. فَاعِل
C. The details of the action i.e. مَفعُول (it has other sub-types)

Example in English:

He	ate	a burger in his room very fast
فَاعِل Doer	فِعْل Action	مَفعُول Details

Note: In Arabic the action and doer are often fused into one word (if the doer is a pronoun)

Past الْفِعْلُ الْمَاضِي 2 Types of Doer i.e. فَاعِل

Recall فَاعِل is the **doer** of the action. They may appear in two forms:

i. **Inside فَاعِل or Embedded فَاعِل** : This is the built-in pronoun every فَاعِل contains.

   For instance, كَتَبَ He wrote here, the pronoun "He" is already embedded inside the verb.

ii. **Outside فَاعِل or Explicit فَاعِل** : This type of فَاعِل is used when the doer is someone/something other than the embedded pronoun. (e.g. "Abdul Karim wrote" instead of "He wrote")

   For instance, خَلَقَ ٱللَّهُ Allah created

Past الْفِعْلُ الْمَاضِي 2 Types of Doer i.e. فَاعِل

Recall فَاعِل is the **doer** of the action. They may appear in two forms:

i. **Inside فَاعِل or Embedded فَاعِل** : This is the built-in pronoun every فَاعِل contains.

For instance, كَتَبَ He wrote here, the pronoun "He" is already embedded inside the verb.

ii. **Outside فَاعِل or Explicit فَاعِل** : This type of فَاعِل is used when the doer is someone/something other than the embedded pronoun. (e.g. "Abdul Karim wrote" instead of "He wrote")

For instance, خَلَقَ ٱللَّهُ Allah created

Summary

If the **Doer** is a **Pronoun** (he/she/it/you/we) then the verb itself contains the appropriate pronoun (i.e. **Inside Doer**). And when the **Doer** is a **Noun**, then it must be explicitly mentioned after the verb (i.e. **Outside Doer**)

Outside فَاعِل or Explicit فَاعِل : Rules

The rules for an **Outside Doer** فَاعِل are as follows:

i. It must come **AFTER the فِعْل**

ii. It must be **مَرْفُوعٌ**

iii. The فِعْل must be in **either the (he) هُوَ form or the (she) هِيَ form**

iv. The فِعْل will **MATCH** the فَاعِل **in GENDER** (which is obvious from point iii.)

Examples:

1) نَصَرَ المُسْلِمُ	The Muslim helped.	5) نَصَرَتْ المُسْلِمَةُ	The Muslimah helped.
2) نَصَرَ المُسْلِمانِ	The two Muslims helped.	6) نَصَرَتْ المُسْلِمَتانِ	The two Muslimahs helped.
3) نَصَرَ المُسْلِمُوْنَ	The Muslims helped.	7) نَصَرَتْ المُسْلِماتُ	The Muslimahs helped.

Note: Every الْجُمْلَةُ الفِعْلِيَّةُ must have a فَاعِل i.e. "Doer", whether it be inside or outside. But you cannot have both.

Outside فَاعِل or Explicit فَاعِل

- **Remember:** Attached Pronouns to فِعْل is "not a Doer" rather **it is the object of the verb or Receiver of Action**.

✓ **Example:** نَصَرَ i.e. He helped but نَصَرَهُمْ i.e. He helped them

✓ **More Examples:** خَلَقَ i.e. He created while خَلَقَكُمْ i.e. He created you(all)

خَلَقْتَ i.e. You (Allah (swt)) created while خَلَقْتَنِى i.e. You (Allah (swt) created me

Status of Pronouns اَلضَّمَائِرُ

There are broadly 6 cases to determine the status of a pronoun.

1. Independent Pronoun. Always مَرْفُوعٌ **Example:** هُوَ مُسْلِمٌ i.e. He is a Muslim
2. Hidden (invisible) inside فِعْل is also مَرْفُوعٌ **Example:** خَلَقَ i.e. He created
3. When attached to a حَرْفُ الْجَرِّ then it is مَجْرُورٌ **Example:** فِيهِ i.e. In it
4. When attached to a حرف النصب then it is مَنْصُوبٌ **Example:** إِنَّكَ i.e. Indeed you
5. When attached to an إِسْم it is a مَجْرُورٌ **because** they form a مُضَاف and مُضَاف إِليه (i.e. possessive) **Example:** كِتَابُكَ i.e. Book OF yours
6. When attached to a فِعْل then it is a مَنْصُوبٌ (object of the verb)

   Example: خَلَقَكُمْ i.e. He created you(all)

Types of مَفعُول

Recall that the مَفعُول is defined as the details of the verb. Additional information about the فِعْل can be collected in the following questions:

- ✓ **WHO/WHAT** the action was **DONE TO**
- ✓ **WHERE** the action took place
- ✓ **WHEN** the action took place
- ✓ **HOW** the action took place
- ✓ **WHY** the action took place

Example:

Ahmed	ate	chocolate	at home	yesterday	happily	because he was hungry.
	↑	↑	↑	↑	↑	↑
	action	what	where	when	how	why

Types of مَفعُول (Cont.)

Questions	مَفعُول Types
Who/What did the doer do (Object of verb)	مَفعُول بِهِ
When/Where did it happen	مَفعُول فِيهِ
Why did it happen	مَفعُول لَهُ
How did it happen	مَفعُول حَال

Recall all these مَفعُول should be مَنْصُوبٌ because they are the details of the verb (i.e. called مَنْصُوبٌ)

Types (Object of verb): مَفعُول بِهِ Example

Example: 2:63

رَفَعْنَا فَوْقَكُمُ ٱلطُّورَ We raised the mountain above you

رَفَعْنَا	We raised it is فِعْل
فَوْقَكُمُ	above you, it answers WHERE, so it is مَفعُول فِيهِ and it is مَنْصُوبٌ
ٱلطُّورَ	the mountain, it answers of WHAT, so it is مَفعُول بِهِ and it is مَنْصُوبٌ

Types (Object of verb): مَفعُول بِهِ Example (Cont.)

Example: 2:251

قَتَلَ دَاوُدُ جَالُوتَ Dawood killed Goliath

قَتَلَ	Killed it is فِعْل
دَاوُدُ	Dawood The external Doer i.e. فَاعِل and it is مَرْفُوعٌ
جَالُوتَ	Goliath, it answers of WHAT, so it is مَفعُول بِهِ and it is مَنْصُوبٌ

Types (Object of verb): مَفعُول بِهِ (with attached Pronouns) Example

- When a **pronoun is attached to a فِعْل** then it is a **مَنْصُوبٌ** (object of the verb)

  Example: خَلَقَكُمْ i.e. He created you(all)

- Such object of the verb is always **مَفعُول بِهِ** **Example:** جَعَلْنَاكُمْ we made you.
  Simply we can think it is the object on which the action falls on.

- **Note:** when the pronoun أَنْتُم is attached to a فِعْل , a helper و goes between the فِعْل and the pronoun to make the pronunciation of the word smoother.

نَصَرْ تُمْ + هُ ⟵ نَصَرْ تُمُوهُ
You (all) helped him

✓ Here هُ is the مَفعُول بِهِ because the action falls on him.

Types (When/Where): مَفعُول فِيهِ Example

Example: 71:5

إِنِّي دَعَوْتُ قَوْمِي لَيْلًا وَنَهَارًا I invited them day and night

إِنِّي	Indeed I It is a حَرْفُ الْجَرِّ +victim
دَعَوْتُ	I invited (no outside doer is possible)
قَوْمِي	my people, it is مَنْصُوبٌ although the status is not obvious because of يِ, it is a fragment of مُضَاف and مُضَاف إِليه It answers of WHAT/TO WHOM, so it is مَفعُول بِهِ Note: قَوْمِي→قَوْمَ + يِ
لَيْلًا وَنَهَارًا	Day and night, it answers of WHEN, so it is مَفعُول فِيهِ and it is also مَنْصُوبٌ

Types (Why): مَفعُول لَهُ Example

Example: 17:31

وَلَا تَقْتُلُوٓاْ أَوْلَٰدَكُمْ خَشْيَةَ إِمْلَٰقٍ And do not kill your children for fear of poverty.

وَلَا تَقْتُلُوٓا	Do not kill (i.e. verb فِعْل)
أَوْلَٰدَكُمْ	Your children, it answers of WHO, so it is مَفعُول بِهِ and it is also مَنْصُوبٌ
خَشْيَةَ إِمْلَٰقٍ	for fear of poverty. Here together it is an الإِضافَة . And the fragment is مَنْصُوبٌ because of the leading إِسْم i.e. خَشْيَةَ It is the answer of WHY, so it is مَفعُول لَهُ

Types (Why): مَفعُول لَهُ Example (Cont.)

Example: 2:19 part

يَجْعَلُونَ أَصَابِعَهُمْ فِي آذَانِهِم مِّنَ الصَّوَاعِقِ حَذَرَ الْمَوْتِ

They put their fingers in their ears against the thunderclaps because of fear of death

حَذَرَ الْمَوْتِ	for fear of death. Here together it is an الإِضافَة . And the fragment is مَنْصُوبٌ because of the leading إِسْم i.e. حَذَرَ It is the answer of WHY, so it is مَفعُول لَهُ

Types (HOW): مَفعُول حَال Example

- This is an extra adjective (or it can be a clause) that describes the attitude, state or circumstance of its possessor. Asking the question, "HOW" and see if it can answer that. It behaves like an adverb in English.

Example: 89:28

ارْجِعِي إِلَىٰ رَبِّكِ رَاضِيَةً مَّرْضِيَّةً Return to your Lord, well-pleased and pleasing [to Him]

رَاضِيَةً مَّرْضِيَّةً **well-pleased and pleasing [to Him]**. It is the answer of HOW, so it is **مَفعُول حَال** Note: they are مَنْصُوبٌ

Components of الْجُمْلَةُ الفِعْلِيَّةُ Summary

Recall from the previous lesson, there are 3 components of a verbal sentence or الْجُمْلَةُ الفِعْلِيَّةُ

A. The **action** i.e. فِعْل

B. The **Doer** i.e. فَاعِل it must be مَرْفُوعٌ

C. The **details** of the action i.e. مَفعُول

- ✓ It has other sub-types such as : حَال لَهُ فِيهِ بِهِ
- ✓ Generally they are مَنْصُوبٌ but it may be any fragments including **مُضَاف** and **مُضَاف إِليه** or **مَجْرُورٌ and its victim**

Sequence in Verbal Sentence الْجُمْلَةُ الفِعْلِيَّةُ

- Expected Sequence of a الْجُمْلَةُ الفِعْلِيَّةُ

مَفعُول (details of verb)	⟵ فَاعِل (external doer (if any))	⟵ فِعْل (verb)
لسَّمَاوَاتِ وَالْأَرْضَ بِالْحَقِّ	اللَّهُ	خَلَقَ
Allah created the heavens and the earth in truth (29:44)		

✓ **Note:** the order of فِعْل (verb) and فَاعِل (external doer) must not be changed i.e. فَاعِل (external doer) must appear after the فِعْل (verb). And it is always in he or she form.

Sequence in Verbal Sentence الْجُمْلَةُ الفِعْلِيَّةُ (Cont.)

- Abnormal sequence demands exclusivity (i.e. ONLY)

فَاعِل (external doer)	فِعْل (verb)	مَفعُول (details of verb)

Example: 67:29

قُلْ هُوَ الرَّحْمَٰنُ آمَنَّا بِهِ وَعَلَيْهِ تَوَكَّلْنَا ۖ He is the Most Merciful; we have believed in Him, and upon Him we have relied.

Sequence in Verbal Sentence الْجُمْلَةُ الفِعْلِيَّةُ (Cont.)

- Abnormal sequence demands exclusivity (i.e. ONLY)

فَاعِل (external doer)	فِعْل (verb)	مَفعُول (details of verb)

Example: 67:29

قُلْ هُوَ الرَّحْمَٰنُ آمَنَّا بِهِ وَعَلَيْهِ تَوَكَّلْنَا ۖ He is the Most Merciful; we have believed in Him, and upon Him we have relied.

تَوَكَّلْنَا	وَعَلَيْهِ
فِعْل (verb)	مَفعُول (verb details)
We have relied ONLY on Him	

آمَنَّا	بِهِ
فِعْل (verb)	مَفعُول (verb details)
We have believed in Him	

Sequence in Verbal Sentence الْجُمْلَةُ الفِعْلِيَّةُ (Cont.)

- When it comes to **attached pronouns as مَفعُول بِهِ** the abnormal sequence is considered as Normal/Expected Sequence and does not demand exclusivity. No mention of ONLY.

اللَّهُ	كُمْ	نَصَرَ
فَاعِل (doer explicit)	مَفعُول بِهِ	فِعْل (verb)

نَصَرَ كُمُ اللَّهُ

Allah helped them

Noun-based Sentence Vs. Verbal Sentence

A1.	نَصَرَ المُسْلِمُ	The Muslim helped
A2.	نَصَرَ المُسْلِمَانِ	Two Muslim helped
A3.	نَصَرَ المُسْلِمُونَ	The Muslims helped

Each of these are الْجُمْلَةُ الفِعْلِيَّةُ or verbal sentences **because**:

- It begins with a فِعْل or Verb and the **فَاعِل or Doer (External) comes after the فِعْل or Verb**
- The **فِعْل or verb always takes HE/SHE form** irrespective of the External Doer
- The فِعْل or Verb and إِسْم or Noun must **match only Gender**, the number is always singular.

Noun-based Sentence Vs. Verbal Sentence (Cont.)

But if the فَاعِل or Doer comes before the فِعْل or Verb as follows:

B1.	الْمُسْلِمُ نَصَرَ	The Muslim, he helped
B2.	الْمُسْلِمَانِ نَصَرَا	Two Muslims, they helped
B3.	الْمُسْلِمُونَ نَصَرُواْ	The Muslims, they helped

B1(f).	الْمُسْلِمَةُ نَصَرَتْ	The Muslim (f), she helped
B2(f).	الْمُسْلِمَتَانِ نَصَرَتَا	Two Muslims (f), they helped
B3(f).	الْمُسْلِمَاتُ نَصَرْنَ	The Muslims (f), they helped

Noun-based Sentence Vs. Verbal Sentence (Cont.2)

But if the فَاعِل or Doer comes before the فِعْل or Verb then:

B1.	المُسْلِمُ نَصَرَ	The Muslim, he helped
B2.	المُسْلِمَانِ نَصَرَا	Two Muslims, they helped
B3.	المُسْلِمُونَ نَصَرُواْ	The Muslims, they helped

- It is no longer a الْجُمْلَةُ الفِعْلِيَّةُ or Verbal Sentence, it becomes a Noun-based Sentence or الْجُمْلَةُ الاسْمِيَّة . And the Doer then becomes the مُبتَدَأْ or Subject of the sentence.
- The فِعْل or Verb part now becomes the خَبَرْ or Object of the Noun-based Sentence. Recall the Complex خَبَرْ may contain an entire sentence (either noun-based or verbal)
- Both إِسْم or Noun (Pronoun as well) and فِعْل or Verb must **match both Number and Gender**.

Rhetorical Benefit of B Type Sentences

B1.	الْمُسْلِمُ نَصَرَ	The Muslim, he helped
B2.	الْمُسْلِمَانِ نَصَرَا	Two Muslims, they helped
B3.	الْمُسْلِمُونَ نَصَرُواْ	The Muslims, they helped

Several points about B Type Sentences:

- It becomes الْجُمْلَةُ الاسْمِيَّة which is stronger than الْجُمْلَةُ الفِعْلِيَّةُ in terms of life-time.
- It **corrects somebody and gives extra emphasis** about the correction. **As an example**, suppose you are talking to somebody who are claiming "The Christians actually helped" Now you want to correct them by saying "No, that is not true, rather these are Muslims who helped"
- It **removes doubt** by correcting the other party.

Rhetorical Benefits of B Type Sentences: Example

Example: 76:28 (part)

نَّحْنُ خَلَقْنَاهُمْ It is We Who created them..

- Here نَّحْنُ is an Independent Pronoun which is a مَرْفُوعٌ
- First مَرْفُوعٌ or حرف النصب must be the مُبتَدَأْ of a الْجُمْلَةُ الاسْمِيَّة or Noun-based Sentence.
- It says, No body else but it is We Who created you.

Rhetorical Benefits of B Type Sentences: Example (Cont.)

Example: 15:9 (part)

إِنَّا نَحْنُ نَزَّلْنَا ٱلذِّكْرَ Indeed, it is We who sent down the message [i.e., the Qurn]..

نَزَّلْنَا ٱلذِّكْرَ	نَحْنُ	إِنَّا
We sent down the message	We	Surely we
Indeed, it is We who sent down the message		

- Note here "WE" have been repeated 3 times.
- Moreover this is a Noun-based Sentence الْجُمْلَةُ الاسْمِيَّة (not a Verbal Sentence, dont be get confused to label it as Verbal Sentence because there is a verb). By definition, Noun-based Sentence الْجُمْلَةُ الاسْمِيَّة is the stronger form of expression than a Verbal Sentence.
- Together, it is very **Emphatic Expression** which is almost impossible to produce in a flowing translation.

Question Words

- In Arabic, most question words have no grammatical effect and can simply be added to the beginning of a sentence (both verbal and noun-based).
- Following are some Question Words commonly used in Quraan

أَنَّىٰ	مَتَى أَيَّانَ	ما	مَن	أَيْنَ	لِمَاذَا or لِمَ	كَيْفَ	أَيُّ	أَ هَلْ
how/from where	when	what	who	where	why	how	which	did

Note: The question word أَ is sometimes attached together with لَمْ as أَلَمْ to imply a **Negative Questining** (i.e. Didn't we/I...)
